FIREFLIES

1 - FIREFLIES

Watching out the peaceful sky
Gaze at the light of shining stars
Tonight...

Each of these tiny lights
Makes one think of fireflies
It's magic ...

But it's strange, it's so quiet everywhere...tonight

Ribbons dancing in the wind
Foghorns singing in the night
Catch a ferry to "Kowloon side"
Walk on "Avenue of Stars"

But it's strange, it's so quiet everywhere...tonight

Refrain

And i feel life is everywhere tonight
And I feel that there's love everywhere that night

All these blurred pictures that scroll
All these blue electric clouds
Until twilight
All these souls dancing in the night
They catch fire till the morning light
Burning with desire

But it's strange, it's so quiet everywhere...tonight

Refrain

And i feel life is everywhere tonight
And I feel that there's love everywhere that night

2 - NO LIMIT !

Look back, at start of your life
Nude as a baby no shoes to walk on track
That fucking box is not big enough
You can't stay here any longer

No limit !

Think back, your frozen nose
Light a fire to warm up your balls
Break the ice, take that girl
Go straight to seventh heaven

No limit!

I'm going on my way
With no limit!

Refrain

Can't stop to walk that way
Cause I have no limit!
Can't stop going higher
Cause I have no limit!

No way to stay so close to
Those little bugs that want to bite my butt
Fly a rocket, walk on the moon
Sorry I have a drink with god at noon!

From now I want to kiss the sky
Have sex with every shining stars
I want to flood the universe
Want it to be filled with my heavenly seed

Refrain

Can't stop to walk that way
Cause I have no limit!
Can't stop going higher
Cause I have no limit!

3 - SINKING TO THE DEEP

Beyond the crimson ocean
Beyond the silver line
I'm running to "love temple"
Attracted by your sighs
I'm charmed by your devilish dance
Can't make a move anymore

Refrain

It seems to be I'm going crazy
I close my eyes and I'm drowning
Sinking to the deep

You rock your body like a twister
I feel the embers of your lips
I'm burning with desire
Please someone, break the spell!

Refrain

It seems to be I'm going crazy
I close my eyes and I'm drowning
Sinking to the deep

5 - PARADISE

The day I was born, I couldn't know
What would be the future
I thought that life was wonderful, but I was wrong
So much later, I saw things so differently
I understood that life hangs just by a thread

This world is made between black & white
We have to walk between truth and lies
My dear we will never see the light
This world is not made for you and I

Ho...! Let's go and save our lives
Ho...! let's go to paradise

We're living in a mad world
Where every one is under pressure
We've got not time to breathe, no time to waste
So many people go the same direction
They have nothing to win, nothing to lose

This world is made between black & white
We have to walk between truth and lies
My dear we will never see the light
This world is not made for you and I

Ho...! Let's go and save our lives
Ho...! let's go to paradise

My endless love....

6 - ANGEL

You've got a sweet taste in your mouth
While the rain is falling outside
In your arms, an angel is sleeping
She's lying on snow flakes
With a lovely smile on her face
And a thousand roses around her

Day by day, you can't help but pray

When you see her smile, when you see her face
It's all over you're in love with an Angel
And day by day, you can't help but pray
Your heart is bleeding, 'cause you're in love
With an Angel

You write down her name on the walls
Roam the world to find the crown
For your love, for your Angel
Even she has flown away
You keep on running every day
For her smile, for your lady

Day by day, you can't help but pray

When you see her smile, when you see her face
It's all over you're in love with an Angel
Day by day, you can't help but pray
Your heart is bleeding, 'cause you're in love
And day by day, you can't help but pray
Your heart is bleeding, 'cause you're in love
With an Angel
With your Angel

7 - TAVARUA

I've been running all my life
Waiting for you, waiting for that time
On white horses till the night
Over wild waves till the dark

Refrain

And now... I'm flying away
And now... I'm flying away

Over the rainbows, through white clouds
I'm flying to blue dream every night
From deep ocean to the sky
My thirst for freedom leads my life

Refrain

And now... I'm flying away
And now... I'm flying away

à Alex...

8 - INTRO PONDICHERY

9 - PONDICHERY

I am sitting in the old armchair
of the family living room
staring at black and white old pictures
hanging on the wall
and my gaze is drawn by an old man
who stands straight and proud
and it seems to me, I've ever seen that face

From my earliest memories
I try to remember
The name of this forefather
Who founded his family here
he had to travel a long way
I think he had to cross the sea
all those pictures are there in my memory

Refrain
above the blue grass, above the sea
up to the shining stars, up to the moon
I've heard this song, this melody
But tomorrow, will my children sing with me?

while I'm sitting there with my eyes shut
I see those pictures in my dreams
I feel I'm going back in time
and now I'm facing my past
I remember these old stories
the words come back to me
And I understand now, the colour of my skin

Refrain
